Annual Student Exhibit Draws Large Crowd

The College Art Department held its annual Student Exhibit last Thursday, Friday and Sunday, the work being viewed by many interested visitors, parents and fellow students of those who had furnished the materials which were shown.

Oils, watercolors, studies in black and white, charcoal, conventional and free designs, drawings from casts and from life, illustrations for stories, basketry and other forms made up the exhibit.

Much interest was evinced in the work which had been done by freshmen students during the year. It was explained by Miss Robinson and Miss Hill that beginners are always given problems involving creative work, for it has been found that unless they do this type of work first, they never develop any liking or aptitude for it.

Eight members of the Senior Class are art majors; all of them live at Canyon; they are: Estelle Bourland, Alleith Elliston, Evelyn Shanklin, Martha Strain, Ruth Wiseman, Ethel Ruth Collins, Maribob Huckabee and Mrs. Clyde L. Slaughter.

Miss Isabel Robinson, head of the Art department will be absent Travis Shaw, Dr. and Mrs. Harris she will spend in Missouri and in northern Minnesota; Miss Miltia Hill will be acting head of the department during the summer.

Assisting her will be Miss Effie Rogers, of Norfolk, Virginia. Miss Rogers has received degrees from the Texas State College for Women and from Teachers College, Columbia University. This year she has been supervisor of art in the Norfolk schools, and work of her pupils was exhibited in New York. She will come to Canyon to begin her work on June 6.

Ex-Student Ass'n Gives $6,300 Hall Fund to Museum

Formal presentation of a donation of $6,300 was made to the Panhandle Plains Historical Society's museum fund by the Ex-Students Association of the West Texas State Teachers College at the annual banquet of that organization Wednesday evening. While it was known to officials for some time that this gift of the Mary E. Hudspeth Hall fund was to be presented to the museum fund, final action was not taken until the meeting last night.

This gift augments the building fund greatly, leaving about $3,000 to be raised to meet the $25,000 requirement of the state, said L. F. Sheffy, secretary of the society. The Hudspeth fund as originally founded, was intended to be used for the building of a girls' dormitory but the association felt that the college had outgrown the need of a dormitory while the museum building had become more necessary.

The banquet was held in Cousins Hall and the tables were decorated with pottery taken from the historical society's museum. Newton Crain, Canyon, president of the 1930 class of graduates, sponsors of the banquet, was toastmaster. W. L. Vaughn gave the invocation. An Indian dance was given by Evelyn Shanklin and a violin solo by Ruth Strain. Wayne C. Eubanks spoke on the "Range."

New officers elected were: I. B. Carruth, Canyon, president; C. W. Crosslin, Childress, first vice-president; Mrs. Roy Guthrie, Memphis, second vice president; Lee Gilmore, Wheeler, third vice president; Herschel Jennings, Canyon, corresponding secretary; Roy Cheatham, Canyon, treasurer; Grace Clark, Canyon, recording secretary; Felix Phillips, Amarillo; G. H. Jones, Happy; Neville Wrenn, Hereford; new directors; A. D. Cummings, Floydada; L. H. Rhodes, Dalhart; Mrs. Julia Kelly, Plainview, hold over directors.

Willard Vineyard, Amarillo, 1931-32 president of the association, presided over the business meeting.

Prof. T. M. Clark Leaves for Portland to Make His Home

Prof. T. M. Clark, known to thousands of young people of Texas as "Uncle Tommy," left yesterday for Portland, Texas, where he expects to make his future home on his farm. He is retiring from the faculty of W. T., and probably will not engage in the teaching profession again. However, he tried to retire two years ago, but the call of the school room was so strong that he returned to Canyon to continue his work.

For nearly 50 years Mr. Clark has been a teacher. He has touched the lives of thousands of young people of Texas who recall with pleasure his wisdom and advice both in the school room and outside the school room.

GAMBLING ON FARM PRODUCE CAUSES SLUMP

JUDGE L. GOUGH TALKS TO FARMERS HERE SATURDAY.

Injunction Against Chicago Board of Trade and Operators Sought In Suit Filed Today.

"The buying power of farm products has been destroyed through the work of five men," stated Judge L. Gough of Amarillo Saturday afternoon speaking at the Court House to a mass meeting of farmers. Judge Gough represented the Farmers Protective League of America in the fight to stop gambling on the products of the farmers of America by the Chicago Board of Trade and other agencies.

A suit will be filed in the federal court at Amarillo, probably this afternoon, by the trustees of the Farmers Protective League, asking for an injunction to stop gambling on farm products, and to collect damages from the men who have manipulated the market for the past two or three years.

Judge Gough states that the depression will continue until the farmer is allowed to make a profit on his products so that he may pay his taxes and buy the things his family needs.

"The Chicago Board of Trade is a gambling institution, and was made for gambling alone," stated Judge Gough. He read from the many reports which have been made on investigations of the affairs of the Board of Trade. Their chief object in the gambling is to destroy grain values. The same group which is back of the Board of Trade also manipulates the cotton and produce market of America, and is the direct cause of the deplorable condition existing in America today. This gambling is not only a menace to the farmers of America, but also to every business line. According to a report of the Federal Trades Commission, "It is kept in business by deceiving the public."

Judge Gough states that reports have been made which clearly show the nefarious dealing of the Board of Trade, but neither the president nor congress will take action. Those who have made a study of the question believe that the only step to stop this gambling is by a direct suit in federal court. The suit will be filed today against one man, who is known to be one of the operators, and the Chicago Board of Trade, which is a corporation. The other four men are unknown at the present time, but it is believed that the suit will soon disclose their names. It is hoped than an injunction may be secured in order to save for the farmers the profits of this year's grain crop which have been taken away from them in the past.

Judge Gough declared that the stock gamblers represent a government of organized greed, which was as much opposed to fundamental principles of government as the government of the underworld.

B. A. Witherspoon Announces For Justice Peace

B. A. Witherspoon announces this week as a candidate for Justice of the Peace, Precinct No. 1, Randall County, subject to the action of the Democratic Primary, July 23.

Mr. Witherspoon makes the following statement regarding his candidacy:

"I am not a newcomer as I came to Randall County in 1889 and have lived in Deaf Smith County and Randall County continuously since that time. I have lived on the plains more than 40 years and have never been a candidate until 1930 when I ran for and was elected Justice of the Peace of this precinct. I have had quite a bit of experience in corporate and Justice Court and feel quite competent to fulfil all the duties required of a Justice of the Peace.

"I have tried to enforce the law fairly and impartially in the past and if I am elected to another term shall continue to do so. I feel that the people of Canyon and Justice of the Peace Precinct No. 1, know me well enough that I need not say more.

"I shall appreciate your influence and vote in the coming primary and respectfully invite your inspection of my court docket at any and all times."

L. B. Penick, 23, of Canyon was seriously injured, and John R. Gillham, 22, also of Canyon, was severely cut about the eyes when the car in which they were riding crashed into a bridge abuttment on the Henrietta road about 10 miles from Wichita Falls between 6:30 and 7 o'clock Monday morning.

The injured men, rendered unconscious by the impact were rushed to Henrietta for emergency treatment and were returned to the Wichita Falls Clinic hospital later. L. B. DR. W. H. WHITLEY DELIVERS ADDRESS ON EDUCATION TO COLLEGE GRADUATES

DEGREES CONFERED BY DR. HILL ON 134 MEMBERS OF CLASS; SCHOLARSHIPS ARE ANNOUNCED; DR. LIPSCOMB DELIVERS BACCALAUREATE SERMON.

"When right is strong enough in the world to replace might, right will rule and only when this happens can we expect the dawn of a new era, be it economic or moral." With these words Dr. S. H. Whitley, president of the East Texas State Teachers College closed his address to the 134 members of the class of 1932 at the West Texas State Teachers College.

In developing his subject "Status of Education in the Present Economic Crisis," Dr. Whitley called attention to the fact that the industrial revolution, begun 100 years ago, is still going on, that individual production with its security has given away to mass production, that inventions have shortened time and space until no people can live to itself alone.

Dr. Whitley said "The world has not fully concluded whether it believes in education of the leaders and ignorance for the masses, or in education of the masses. But if democracy is to live, the masses must be educated. This education must include a knowledge and ability to use the mother tongue, a knowledge of business which will enable the individual to make a living and realize the resources of the world, a development of honesty and frugality and the creation of the ability to live happily. Up to this time our education has done nothing to help people to be happy, to cease a restless striving which makes happy living impossible."

Following Dr. Whitley's address the members of the graduating class were introduced by Registrar D. A. Shirley, and degrees were conferred upon the members of the June class by Dr. J. A. Hill.

Following a custom which has prevailed for several years, the names of those students who have been awarded scholarships for the coming year were announced.

Miss Dorthea Martin of Borger and Canyon was awarded the Agnes Charlton Spanish Scholarship, given annually to the student majoring in the department and showing promise as a teacher.

Miss Ruth Truss of Fluvanna and Mrs. Lila Dean of Canadian were awarded the scholarships offered by Miss Jennie C. Ritchie and Miss Florence McMurtry to the student doing outstanding practice teaching in the intermediate grades and the high school respectively.

To Guilford Miller of Hereford went the Harley Sadler Scholarship, available each year to the person doing outstanding work in the field of dramatics, and Miss Eulalia Burrus of Floydada received the Mary Morgan Brown Scholarship awarded for fine work in the speech department.

Roger George of Thrift was given the Regents Scholarship. Each of these scholarships has a value of $100 and is available to help its holder through the 1932-33 session of the West Texas State Teachers College.

The Olin E. Hinkle award of $35.00, given annually to the person whose work on the staff of The Prairie has been of unusual merit was earned by Miss Elva Lee Bagley of Canyon.

A feature of the commencement program was the music, the "Priests March" from Aida by Verdi, the Overture "Der Freischuetz" having been played on the same occasion for the past ten years, until they have become a traditional part of the exercises. The orchestra was in charge of Mr. Wallace R. Clark.

The Graduation exercises were the culmination of a week of activities which began last Thursday when the Senior Class gave its Class Day program.

At this time the seniors presented their gift. This was a check for $350 payable to the building fund of the Panhandle Plains Historical Society. The gift was accepted by Dr. J. A. Hill in behalf of the building committee of the organization. Gifts to Miss Brown in appreciation of her assistance in giving the senior play, "Mary, Mary, Quite Contrary," and to Mrs. Sheffy for her many kindnesses to the members of the class of which Professor L. F. Sheffy was sponsor were other features. The last half of the Senior Class Day hour was given up to a carnival which enabled the serious members of the class to have one last fling before donning their academic robes.

Thursday night the President's Home was thrown open for the annual reception held by President and Mrs. Hill in honor of the senior class.

Friday and Saturday were given over to examinations, the last being completed on Monday.

When the Senior Class assembled at eleven Sunday morning for the baccalaureate service, it was to listen to Dr. L. N. Lipscomb, presiding Elder of the Amarillo District of the Northwest Texas Conference of the Methodist Church. Dr. Lipscomb pictured for them the floods of living water available through the life of the spirit and pleaded with them to hold to the virtues of character while seeking material advancement. Rev. J. R. Sharp, Rev. F. T. Charlton and Rev. C. E. Jameson assisted in the service.

Monday and Tuesday evenings were given over to the annual concerts of band, chorus and orchestra.

The band concert, directed by C. E. Strain, was given out-of-doors, the arched entrance of the Education Building forming a sounding board for the numbers which were heard by a large audience most of it seated in cars along the campus drives.

On Tuesday evening the College chorus and orchestra, under the direction of Wallace R. Clark gave the annual commencement concert. This year a cantata, "A Tale of Old Japan" with words by Alfred Noyes and music by Coleridge-Taylor was given.

C. W. Batchelder read the poem before it was sung. Soloists were Miss Frances Snodgrass, Miss Florence Snodgrass, Wallace R. Clark and William Dawes. A very appreciative audience was delighted to hear again this cantata which possesses so much beauty and musical virtue.

Dr. Hill delivered the commencement address to the graduates of the Demonstration High School Monday night. Several honors were announced at this time, Charles Stratton winning first place with the highest grades and Frances Alice Clark winning second. Diplomas were presented by Superintendent F. E. Savage.

The seventh grade graduation had taken place at eight o'clock Saturday evening with C. W. Batchelder addressing the children who will enter high school next fall.

Large Crowd Attend Services Memorial Day

One of the largest crowds ever to take part in such a service attended the Memorial Day services held at Dreamland Cemetery Monday afternoon at 5 o'clock under the auspices of the American Legion and the Auxiliary. THE PROHIBITION QUESTION

The State Democratic convention at Houston last week voted by a small majority to approve the referendum for a vote of repeal of the 18th amendment. The wets were in majority, and it is stated that many drys voted for the referendum rather than swallow a more bitter pill at the hands of the majority. The wets dominated the convention simply because the drys in the large counties refrained from going to the precinct conventions, believing that the pledge would be enacted, and further declaring that they would bolt the Democratic ticket this fall if the Democratic party declared wet, and the Republicans nominated Hoover, or a candidate known to have dry tendencies. It is too bad that the wet majority at Houston saw fit to tie to Mr. Garner the impediment of wet propaganda, which will most certainly be paraded at the national convention, and urged that it started with his home state. We feel that if the Texas delegation parades the liquor question at Chicago as they paraded it at Houston, it is going to be all off with Mr. Garner in November, even should he withstand the battle on Chicago. In spite of all the economic chaos in America today, and all the failures of the Republican party to solve these problems, the liquor question was the only one discussed at Houston.

However, prohibitionists have long ago come to the conclusion that the fight on the liquor traffic must be made again, and the laws made more effective if America is to remain in the dry column. The Literary Digest and other publications by popular polls have been showing that America is far from being a dry country. The lenience of state and national officers toward the enforcement of the liquor element has made bootlegging a safe, and most profitable business. When national prohibition was enacted, the federal government made no attempts to enforce the new law until bootlegging was firmly established, and since action has started, too many lax enforcement officers have been appointed who were friends of the bootleggers, and with the entanglements of smart criminal lawyers, its enforcement today is almost impossible.

When prohibition was voted, about three million young men were in France. They cried out against the vote of the people at home, declaring that they had been imposed upon, for not having a voice in the election. In the 14 years since these men returned, most of them have acquired families and are more interested today in something to feed their families than they are in loading down their stomachs with whiskey or beer. However, many of them are still crying out against the vote of the people of America and demand to have a voice on the question.

Elections are on in America this year. The prohibitionists hope to keep America dry in name, and to finally make it dry in fact, the ballot box is the place to start, locally, state-wide and nationally. Congress is overwhelmingly dry at the present time, as shown by recent votes in both the House and the Senate. But the wets are putting up a relentless fight, and will use every means to place in office the foes of prohibition. Friends of prohibition and those who wish to see the liquor traffic forever banished from America have the fight of their lives on at the present time to elect men and women to office who will hold the ground gained during the past generation, and do everything possible to strengthen prohibition in America.

The Supreme Court of the United States has upheld the truck and bus law of Texas, giving the people, who built the highways, the right to say whether or not the heavy trucks and busses shall come along to destroy the highways as well as kill and injure people. Trucks and busses have become a part of modern transportation facilities. Many of the operators recognize the public's rights to impose regulation. Some of the operators have not recognized that right and have imposed upon the public. The highways must be regulated for the protection of the investment made by the public, and for the protection of those who use the highways.

Two forces in America are working to overthrow constitutional government. The upper mill-stone is greed and graft of the higher-ups, who are using government only for the sake of the protection that it may offer, but are secretly violating every law on the statute books if it interferes with their desire for greed and gain; the other in the lower mill-stone, the underworld of gamblers, bootleggers, murderers, who are openly and fearlessly in opposition to organized society. If civilization is to withstand the onslaught of these two forces, every citizen who believes in law and order, who wishes to see that organized government shall live and grow, must be on guard and uphold those in authority who seek to perpetuate our government.

As a result of Col. Thompson being given a place on the Railroad Commission, this leaves only two candidates for congressmen-at-large from West Texas, Pink L. Parrish of Lubbock, and Mrs. Phebe K. Warner of Claude. Parrish will run for place No. 1, and Mrs. Warner place No. 2 since the Supreme Court of Texas has upheld the authority of the Democratic State Executive committee to cause the candidates to run for places Nos. 1, 2 and 3. So far as the News is concerned, we shall vote for the two West Texas candidates.

Canyon's first daily newspaper will make its appearance Sunday morning. Daily editions of The News will be printed Sunday, Tuesday, Wednesday, Thursday and Friday. Read The News carefully next week for the cooking school information.

Col. Ernest O. Thompson, mayor of Amarillo, will take the place on the Railroad Commission made vacant by the registration of Pat M. Neff who becomes president of Baylor University. Col. Thompson must run in the July primary for a four year term. In the same election a member of the commission will be elected for the six year term to succeed C. V. Terrell. Lee Satterwhite, former state representative of this district, is a candidate opposing Terrell and several others.

McLean News: The taxpayers' league of Amarillo, after studying the city's financial condition, asks, among other recommendations, that the city printing plant be discontinued, not only as a matter of fairness to taxpaying printers, but as an economy measure. There is no way for a municipality to operate a printing plant as economically as a private plant, and a city, or government of any kind, has no more business entering into the printing business than it has to open a grocery store.

Europe has made up its mind that Uncle Sam will pay the expense of the last war. It will not be long, however, before these nations will be begging this country for another loan to conduct another war. Wonder how well Uncle Sam can remember?

There were 285 kidnappings in the United States last year. Of this number nine were in Texas, and in three cases the offenders were never caught and punished. The law to make kidnapping a capital offense should have a very desirable effect.

CANYON CITY CLUB NEWS

The members of the club are just beginning to realize the damage caused by the heavy rain of a week ago. The golf course suffered most, as the oiled sand on the greens was washed off and dirt deposited on most of them; the bases were little damaged. A great amount of rock was washed onto the fairways.

The woman's tournament was not held last Sunday as was announced owing to the condition of the course; it will be played at a later date.

Jimmie Gamewell, last year's winner of Dalhart's Invitation Tournament, has entered this year's play to be held June 5th and 6th.

The standing of the clubs in the Golf League are as follows:

	Won	Lost
Canyon	2	1
Plainview	2	1
Tulia	2	1
Clovis	1½	1½
Hereford	1	2
Happy	½	2½

The club is asking Clovis to postpone Sunday's game, as the club cannot place their best team against them, as some of the boys want to attend the Dalhart Tournament; they have not had a reply from Clovis.

As the creek waters clear, fishing is the order of the day. Most of the moss and brush left with the high water, leaving the creek in much better condition.

Frank Shotwell, keeper, says he is looking forward to the summer with a great deal of pleasure, as it now looks as though every day will be provided with about fifteen hours of work. Frank says he wouldn't mind the work so much, if what he does could be noticed.

MRS. J. L. DUFLOT ENTERTAINS CLUB

CHAMBER OF COMERCE

FRED E. WORTHAM, Secretary

The big time in Canyon is scheduled for June 17th.

This is an event which it is hoped, will exceed, from the standpoint of entertainment, the big celebration of last year. The best array of local talent has been secured for the cast and with a director and two assistants in charge of all details the performance is one that will be remembered in Canyon for many weeks to come.

Its not too early to begin making your plans to attend.

Remember its going to be a "Dollar Show" at "Repression Prices."

And of course the Chamber of Commerce is sponsoring this for the purpose of adding to the museum fund of the Panhandle-Plains Historical Society.

From scattered sources, including the New York Times, and Wallaces' Farmer, these items of 20 years ago have been found:

The Independent Artists would like to exchange painting for rent, dentistry and doctor's services.

Horse prices have fallen less than other farm products and the demand is good.

Manufacturers of horse collars report good business.

Manufacturers of glass jars for home preserving report good business.

Is the world moving forward or backward?

Merle Thorp, editor of Nations Business, says:

"When a legislator boasts that he has devised a tax which is 'painless' he gets no applause from me. One of our difficulties today is that we have too many invisible taxes. What we need is a 'painful' tax, one that will shock us into an investigation as to what the tax money is spent for."
